

GESELLSCHAFT FÜR OPERATIVEN HOCHWASSERSCHUTZ MBH

Flood protection for your property

WHS – Magnet System

- Product tested by the German Technical Inspection Agency (TÜV)
- High leak-tightness according to the EU-Norm
- Ability to withstand pressure statically tested

Do you want to protect your property from floods?

Then seal your doors, windows, basement windows and air vent openings with our WHS – Magnet System. It protects your building from unwanted water entry and thus avoids the recurring damage that floods cause to property and inventory.

Our system can be set up in seconds and offers safe and fast protection.

WHS Magnet-System – an investment in the future to protect your valuables.

Possible applications

- Sealing of windows and doors
- Openings can be completely sealed (4-sided sealing)
- Option to seal half doors/windows (3-sided sealing)
- Swiveling design available

Product details

- Water-Home-Security (WHS)
- Light metal plates with integrated seals
- Sealing plates attached by magnet technology
- Sealing plates are made to measure
